PROFILE SUMMARY

MERN Stack Developer with 8 months of hands-on experience, including 6 months as a MERN Stack Developer Intern at Coding House and 2 months as a Full Stack Developer at Varniva Pvt. Ltd. Skilled in MERN Stack, Next.js, REST APIs, JWT authentication, API integration, CRUD operations, and responsive web development, with experience working on real-world product-based projects.

EXPERIENCE

MERN Stack Developer Intern | **Coding House** | **Jan 2026 – Jun 2026**

- Developed and maintained full-stack web applications using MERN Stack and Next.js with responsive UI.
- Built REST APIs, authentication systems, and CRUD functionalities integrated with MongoDB Atlas.
- Developed admin panels, dashboards, and role-based features for efficient application management.
- Integrated Cloudinary, Clerk, and MongoDB to support file uploads, user authentication & authorization.
- Utilized GitHub for version control, Vercel for frontend deployment, and Render for backend hosting and deployment.

Full Stack Developer (MERN Stack) | **Varniva PVT LTD** | **Aug 2026 – Sep 2026**

- Worked on real-world product-based projects with production-oriented development workflows.
- Collaborated with the team on requirements, development tasks, debugging, and project delivery.
- Managed admin panels, frontend, backend functionality, and API integrations across product modules.
- Implemented CRUD operations, API integration, and data handling for product features.
- Gained hands-on experience with real-world team collaboration and application development.
